

**MATHEMATICS**  
for  
**SCIENTISTS**

An Introduction

Michael Bulmer

2016

# Contents

## 1 Numbers 1

### **Natural numbers 1**

Representation of natural numbers 1

Operations on natural numbers and the laws of arithmetic 2

### **Prime numbers 3**

The unique factorization theorem 3

The number of primes 5

The sieve of Eratosthenes 5

### **Extensions of the number system 5**

Negative integers 6

Rational numbers 7

Irrational numbers 8

Exponentiation 10

Complex numbers 11

## 2 Geometry and Trigonometry 13

### **Euclidean geometry 13**

Parallel and perpendicular lines 13

Triangles 16

### **Trigonometry 19**

Right-angled triangle definition of trigonometric functions 19

Circular definition of trigonometric functions 22

Applications of trigonometry 24

The calculation of  $\pi$  27

### **Analytic geometry 29**

Transformations 29

Straight lines 31

The circle and the ellipse 32

The parabola 34

The hyperbola 38

### **Spherical geometry and trigonometry 39**

### 3 Sequences, Series, Functions and Limits 43

#### **Sequences and series 43**

Arithmetic sequences and series 43

Geometric sequences and series 44

Euler's number  $e$  45

The Fibonacci sequence 47

#### **Functions of real variables 48**

Limits and continuity 48

Inverse functions 51

Polynomial functions 53

Exponential and logarithmic functions 54

### 4 Calculus 58

#### **Differential Calculus 58**

Differentiation 60

Exploring curves 63

Series expansions 66

#### **Integral Calculus 69**

The Riemann-Darboux integral 69

The fundamental theorem of calculus 71

### 5 Differential and Difference Equations 74

#### **Differential Equations 74**

Exponential decay 74

Logistic growth 77

#### **Harmonic motion 80**

Simple harmonic motion 80

Damped harmonic motion 81

Forced oscillations and resonance 84

#### **Difference Equations 86**

The Ricker model 86

### 6 Vectors and Matrices 89

#### **Addition and Multiplication 89**

#### **Determinants and Matrix Inversion 91**

|          |  |            |
|----------|--|------------|
